

Agouon Institute and the Center for Microbial Oceanography: Research and Education
Summer Course “Microbial Oceanography: Genomes to Biomes” 2009

Student Application Form

Application Deadline: February 20, 2009

1. Name:
2. Contact Information (mailing address, telephone, FAX, and email):
3. Are you currently a student or post-doc? If so, where?
4. Please provide a chronological synopsis of your post-secondary education including course taken in oceanography, biogeochemistry, microbiology, and ecology (500 words or less):

5. Please provide an updated curriculum vitae including research experience and any publications:

6. Please provide a brief list the types of equipment, methodologies or computer-based models you have used in your research:

7. What prior experience, if any, have you had working at sea? Please include a description of the type of work conducted and the duration of time at sea:

8. If selected as a participant in the course, you will be asked to prepare a formal 20-minute seminar on your current research. Please provide a title and brief (<200 words) abstract for this presentation.

9. Why are you interested in a course on microbial oceanography? What are your career goals and where do you see your professional development leading you over the next 5 years (500 words or less)?

10. Please provide the names and contact information for three people who have agreed to prepare letters supporting your application. It will be your responsibility to make sure the letters are sent and received before February 20, 2009. Be sure to provide these references with information about the course and a copy of your application.
